Marcus enjoys working with entrepreneurs and creative people. As a registered patent attorney, he is regularly called on by his clients to provide counsel on all aspects of intellectual property law, including patents, trademarks, copyrights, trade secrets, and internet law.

Prior to entering the legal industry Marcus was employed as an electrical engineer and a software engineer. While working at a startup research and development laboratory he conceived of two new wireless technologies which were later patented. This unique background gives him an advantage when working with technology clients – from startup entrepreneurs to established firms – as he understands both the legal and technical goals.

Marcus provides the following services: domestic and foreign patent prosecution; domestic, foreign, and state trademark prosecution; litigation actions involving infringement of intellectual property rights; domain name disputes and internet law, including actions under the Uniform Domain-Name Dispute Resolution Policy; federal trademark cancellation and opposition proceedings; and intellectual property licensing and portfolio management.

Marcus has a BV Distinguished® Peer Review Rating in Intellectual Property, Patents and Litigation from Martindale-Hubbell and has been selected from 2012 through the present by SuperLawyers® as a Northern California Rising Star.

It was only a matter of time before Marcus – whose family has deep roots in the agricultural industry – moved out to a small ranch, where he and his wife now live with their three children.
